

FOGAZZA

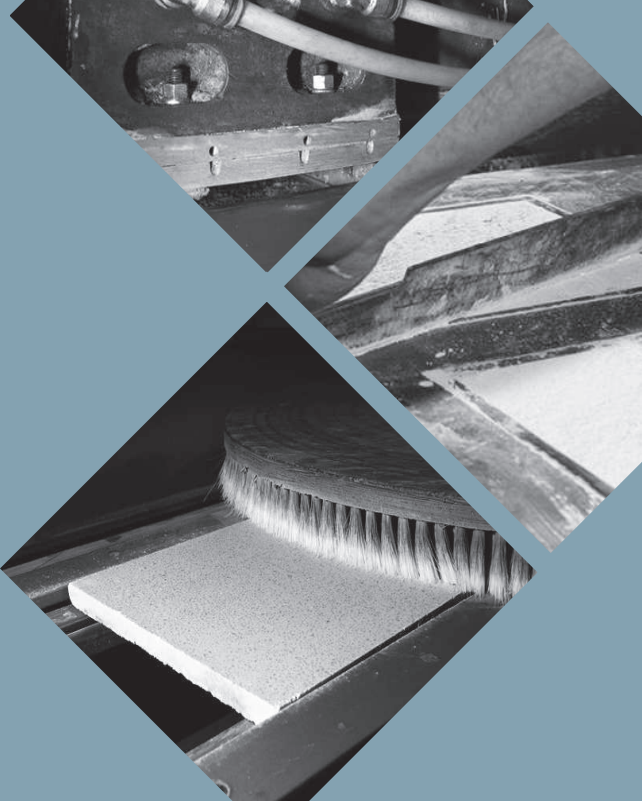

TRADITION AND INNOVATION SINCE 1905

THE COMPANY

Nei primi anni del novecento, movimenti artistici affini alla cultura mitteleuropea, trovano la loro massima espressione nel Liberty Palermitano. Si sviluppa un concetto d'architettura intesa come "opera d'arte in tutto", che si concretizza in oggetti d'arredo, affreschi, vetri colorati, ferri battuti e maioliche. Nel contesto di fermento artistico dell'epoca d'oro dei Florio, a Palermo nasce una solida realtà aziendale che opera da oltre un secolo nel settore dei pavimenti in graniglia. Dal 1905 ad oggi Fogazza ha saputo mantenere viva la tradizione coniugandola all'innovazione tecnologica, che ha portato alla creazione di un prodotto di elevata qualità estetica e tecnica. La semplicità della posa, la varietà di forme e colori e la possibilità di creazioni personalizzate, consentono l'impiego dei prodotti su vasta scala, soddisfacendo così anche le richieste più esigenti. Fra due marmette di uguale disegno, sarà sempre possibile trovare piccole differenze di tonalità, linee geometriche non precise, che, lungi dall'essere considerati difetti, rappresentano la "perfezione dell'imperfezione", caratteristiche dei nostri prodotti a garanzia di un manufatto realizzato a mano.

In the first years of the twentieth century, artistic movements rose from the mitteleuropean culture and found their expression in Palermo's Liberty style. A form of architecture as "art in everything" is developed and expressed in interior design, frescos, colored glass, wrought iron and majolicas. It is during the artistic turmoil of the golden years of Palermo's Florio family that a company which has now been operating for more than a hundred years in the grit-stone paving market is born and established. From 1905 until now, Fogazza has kept tradition alive conjugating it with technological innovation to create a product of high performance. The simplicity of the laying, the variety of shapes and colours and the possibility of personalized creations allow for a large scale use of the products, meeting even the most demanding needs. There will always be a slight difference between two tiles of equal design, expressed in both the tone and the slight unpreciseness of the geometric lines, which are to be considered a characteristic of the product, and expression of the perfect imperfection of hand made products.

CONTEMPORANEA

CONTEMPORANEA è la nuova collezione Fogazza per il 2017. Questa esperienza rappresenta la ricerca di nuovi linguaggi decorativi per materiali della tradizione, capaci di dialogare con gli scenari più recenti del contemporaneo interior design.

La collezione descrive un percorso fatto di intrecci cromatici inediti, disegni moderni e accostamenti materici, con la proposta di cinque famiglie decorative che fondono tradizione e innovazione. Attraverso l'uso della graniglia monocromatica e decorata TERRAZZO e TERRADECOR, della fusione fra graniglia e legno TERRAWOOD, con la ripresa del tradizionale segato di marmo PALLADIANA, fusione fra la colorata graniglia e l'algido marmo Carrara e infine con una famiglia di rivestimenti materici WALL.

La collezione CONTEMPORANEA ridisegna il concetto di decoro, grazie all'uso delle nuove tecniche con l'incisione a controllo numerico.

È possibile realizzare i nostri prodotti nelle finiture Levigata (LV) Anticata (AK) Lucida (LCD).

IMPORTANTE I colori riprodotti in questo catalogo sono indicativi. Le miscele e gli impasti sono costruiti da prodotti naturali e quindi dalle cromatiche variabili.

THE COLLECTION

CONTEMPORANEA is the new collection from Fogazza for 2017. It is an experience that represents the search for new decorative languages for traditional materials which are capable of expressing the latest developments in contemporary interior design.

The collection traces a path of unique chromatic motifs, modern designs and material combinations, and comprises five decorative families that blend tradition and innovation. TERRAZZO and TERRADECOR use monochrome and decorated graniglia, TERRAWOOD is a blend of graniglia and wood, PALLADIANA revives traditional marble powder and is a blend of coloured graniglia and icy Carrara marble, and lastly the WALL range of textural coatings.

The CONTEMPORANEA collection is a new approach to the concept of décor, employing innovative techniques with numerically controlled etching.

It is possible to manufacture our products in finishes Honed (LV) Antique (AK) Polished (LCD).

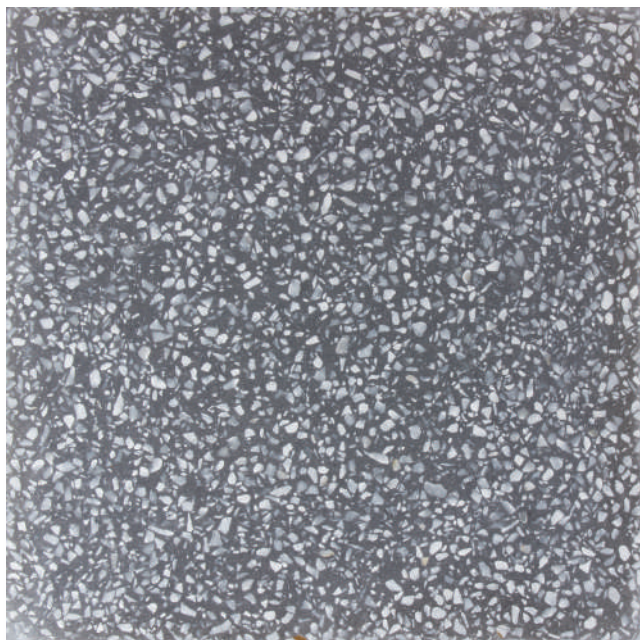

WARNING The colours shown in this catalogue are indicative. The mixes and blends are made up of natural products and colours will therefore vary.
